**Mobile:** 7397288546

---

Frontend Engineer with 2.5 years of experience building scalable web applications using React JS, Next JS, and Tailwind CSS. Skilled in creating reusable components, integrating REST APIs, and collaborating with Node.js-based backend services. Experienced in translating Figma designs into pixel-perfect responsive interfaces, optimizing performance across devices, managing code with GitHub, and deploying applications via Vercel and Hostinger. Focused on writing clean, maintainable, production-ready code for both product platforms and brand websites.

## CORE COMPETENCIES

---

React JS, Next JS, JavaScript (ES6+), Redux, Tailwind CSS, HTML5, CSS3, Bootstrap, REST API Integration, Node.js (Basics), Git, GitHub, Vercel, Hostinger, Reusable Components, Performance Optimization, WordPress

## PROFESSIONAL EXPERIENCE

---

### Frontend Engineer– Crayon Biz LLP

**Dec 2025- Present**

- Leading frontend development using React JS, Next JS, and Tailwind CSS.
- Built reusable component architecture, managed global state using Redux, and developed pixel-perfect responsive UI from Figma.
- Integrated REST APIs, handled dynamic data rendering, and worked closely with Node.js-based backend services.
- Improved performance, SEO structure, and cross-device compatibility.
- Managed code using Git & GitHub and deployed projects via Vercel and Hostinger.

### Junior Web Developer - iSource ITES pvt Ltd, Chennai.

**Nov 2023 - Nov 2025**

- Built and maintained responsive websites using HTML, CSS, Bootstrap, JavaScript, React JS, Tailwind CSS, and WordPress.
- Customized themes and converted design mockups into functional web pages and React components.
- Ensured website responsiveness, performance optimization, SEO-friendly structure, and basic API integrations where required.

## KEY PROJECTS

---

**Atna AI** – Product Interface: Developed reusable UI components and integrated REST APIs using React and Next JS for dynamic product workflows.

**GRB** – Brand Website: Created pixel-perfect responsive website, optimized performance, and ensured cross-device compatibility.

**SolvStrat** – Corporate Website: Built a fully responsive SEO-optimized website from Figma designs using modern frontend architecture.

## EDUCATION

---

**Bachelor of Computer Application (80%)** – Kumararani Meena Muthiah College

**HSC (75%)** – Santhome Higher Secondary School

## CERTIFICATES

---

Frontend Development with React JS - Besant Technologies
